

BCIC 2015

21st & 22nd May

The Biocomposites in Construction International Conference

London 21st & 22nd May 2015

For academics, industry and other stakeholders – Topics covering:

- Extraction/Separation of materials from biomass (Inc. biorefinery processes and modelling)
- The new Pulp & Paper industry in the Bioeconomy
- Nanocellulose as a key material for biomass valorization
- Production and application of bio-based intermediate products (resins, fibres, additives etc.)
- Bio-composites in Construction applications (Inc. bio-based and biodegradable)
- Economics of the Bio-economy (Inc. extraction/separation processes, Nanocellulose, bio-composites production etc)
- Strategy and legislation governing production and application of bio-composite construction products (Inc. safety)

Venue: Society of Chemical Industry, 14-15 Belgrave Square, London // **FREE** for both presenters and attendees

E-mail abstracts to: ianhayton@exergy.uk.com (Deadline 23rd March)
